ENEN ASSOCIATION is a non-profit international organisation established under the French law whose mission is the preservation and further development of higher nuclear education and expertise.

ENEN ASSOCIATION main objectives:
– To deliver a European Master of Science degree in Nuclear Engineering
– To encourage PhD studies, to promote exchange of students and teachers participating in the network
– To establish a framework for mutual recognition
– To foster and strengthen the relationships between universities, nuclear research laboratories, industries and regulatory bodies.

ENEN ASSOCIATION results from the cooperative action of partners of the ENEN project funded by the European Commission under the Euratom 5th framework programme.

ENEN ASSOCIATION effective members are academic institutions providing high level scientific education in nuclear disciplines. Associated members are nuclear companies, research institutes and organisations having an established tradition in the field of nuclear education, research and training.

About 43 institutions from 18* European countries are currently members of ENEN ASSOCIATION.

The aim of this seminar is to give an overview of the French experience on dismantling. The information is based on appropriate presentations made by experts and illustrative visits of sites under dismantling.

**Topics (indicative)**

- General overview on dismantling in France
- Decommissioning scenarii
- Decommissioning issues
- Recent technical and technological issues
- Dismantling techniques
- French regulatory and safety aspects in decommissioning
- Experience feedback

**Participations**

Conferences and visits will be presented by skilled experts coming from:

- Commissariat à l’énergie atomique (CEA)
- Autorité de sûreté nucléaire (ASN)
- Electricité de France (EDF)
- AREVA Nuclear Cycle (AREVA NC)
- Enriched uranium treatment plant currently under dismantling (CEA)
- Fast neutron reactor under dismantling (CEA)
- Hot cells dismantling (CEA)
- NPP under dismantling (EDF)
- Graphite / Gas reactors under dismantling (CEA)
- Spent fuel reprocessing plant currently under dismantling (AREVA NC)
- Enriched uranium treatment plant currently under dismantling (CEA)
- Fast neutron reactor under dismantling (CEA)

**Fee covers**

Lectures, documentation, workshop papers, lunches, most dinners, hotel accommodation (3 stars hotels) and transportation (high speed TGV trains and AC buses) during the seminar and the technical visits. The fee does not cover travel expenses to France.

**Registration for the seminar**

To get the registration form, please contact: sec.enen@cea.fr

Payment should be made by cheque made out in Euros to ASSOCIATION ENEN or proof of bank-to-bank transfer to the BNP SACLAY - ASSOCIATION ENEN - IBAN: FR76 3000 4017 8800 0100 0428 227 - swift code: BNPAPPRPMMAS.
