

# AINSE 2020 STUDY TOUR

## PARTICLE THERAPY IN JAPAN

16–19 AUGUST 2020

**AINSE Ltd. is coordinating a study tour in Japan to provide essential information regarding the operations of particle therapy centres in Japan.**

The tour is open to participants from a wide variety of disciplines: senior academics, senior managers, political leaders, representatives from research and development organisations, and members of the Australian oncology community, executive authorities, and regulators.

The expertise and international connections in this tour will provide useful information about how proposed particle therapy centres could operate within an Australian context. The tour will provide a unique perspective on particle therapy technology and applications, including both proton therapy and carbon ion therapy, and facilitate individual networking with interested persons.

Tour participants will have the opportunity to:

- Gain awareness of the most recent developments and proven experience in particle therapy, and insight into the future directions of particle therapy in Japan;
- Talk to leading specialists in the fields of particle therapy research, development, implementation and treatment;
- Visit established sites to learn about the requirements for establishing a particle therapy facility, and the new centres currently under construction;
- Gain valuable insights into how a patient undergoes particle therapy treatment in a clinical setting; and
- Network with leading scientists and policy makers.

**Limited positions available; registrations are subject to availability.**

Delegates arrive in Tokyo on August 16. The tour commences August 17 and concludes back in Tokyo on August 19. The registration fee is **A\$3,950 (GST free)** per delegate and covers:

- Fully-escorted visits, including transport, to three particle therapy sites under the guidance of **Dr. Dale Prokopovich**, ANSTO Physicist, and **Ms. Michelle Durant**, Managing Director, AINSE Ltd.
- Three nights' accommodation in Tokyo with breakfast included.

Registration fees do not cover airfares, airport transfers, selected meals, and travel insurance. Delegates are responsible for their own flight and transfer bookings to and from Tokyo. Fees are subject to conditions outlined in the registration form.

**For further information, and to register your interest, please contact Michelle Durant (Managing Director, AINSE Ltd.)**
